ME

“ *My fondest memory of Uncle Jerry was when one summer when I was about 8. Grandpa Dale had made a "pool" out of hay bales and a giant plastic liner. Swimming was fine, but when Jerry showed me we could jump off the garage roof into the pool, well the fun index went off scale. No pool experience has ever lived up to those of that summer week with my uncle.*

I remember jerry as a 5 year old hiding under my parents steps. Roger and I were having our wedding reception and every time some one went up the steps he would throw a handful of peanuts at them. Rip jerry

I have fond memories of cousin Jerry with many visits to his parent home. When he was born he was my only cousin that was several years younger than I was and I couldn't wait to hold him. I always remember Jerry with a sweet smile on his face and a wonderful wedding and reception with his wife Tina.

“ *I remember the most adorable little boy who lived next door. My brother Randy remembers a good friend and my Father wanted to make sure to let the family know how sorry he and all of us are to hear that Jerry has passed. We all loved being close with this family and growing up next to them. You are all in our thoughts and prayers.*

“ Chief Briggs sent Jerry and I out to burn a barn that a resident had requested. We took old 607 and set up a folding tank, filled it, returning with a full water supply and proceeded to burn the old barn. Jerry said "I think we have parked the truck too close. That's when I noticed the metal on the truck buckling. We moved the truck. It got really hot because you could fit a hand between the compartments and the body of the truck. When we got back Chief asked how it went?... That's when we noticed the taillights had melted. Chief never said much about that but we knew....that was too close for comfort. It's been a lot of year's since then but never forgotten.

I will miss my friend until we meet again.
