“ I have many fond memories of being a kid and playing any and every kind of ball at Giles farm with Gordie, Gary, their older brothers and our mutual good friend Gene George. We went to elementary & junior high school together. I was fortunate enough to have played shortstop behind Gordie in little league and pony league as he snapped off the same wicked curveball he later struck me out with once in high school. Tammy & I express our deepest condolences. Gary Bowen
