“ I had the pleasure to care for Joan for almost 2 years and she found a way to truly capture my heart. She absolutely loved to sing and we would sing and dance together often. She was so loving and always made me feel like my presence made a positive difference in her life. She would always greet me with a big smile & tell me she missed me, and how wonderful she thought I was. I thought Joan was wonderful too, and I'll never forget how kind she was to me. Miss & love her always!
