“ Megan,I am terribly sorry for your loss. I worked with your mother for 6 years at Gilreath. She was a terrific person and loved you dearly. No one can know just how difficult this time is for you, but maybe it will help to know how well thought of your mother was.My thoughts and prayers are with you.Sincerely,Sue Hahn##imported-begin##Sue Hahn##imported-end##

“ Dear Megan, I'm truly sorry for the loss of your mother. We went to school at Greenwood, and then we went to St Michael- we graduated from the eighth grade, she was always a great friend and a great person, she was always there, whenever I needed a friend! She took me to the circus with her, she took me to the football games, she took me to the movies! She may have been young, but she always wanted to include me in things that I wouldn't have had the privilege of experiencing without her great generosity- These are memories I have always cherished- Her heart was so big, the love she shared with her friends, she truly was a great person! I lost contact when we moved to the Portland School district, and lost contact with your mother- I'm sorry for both our losses! May God Bless you and watch over You! Your Mother will always be there with you in spirit!###imported-begin###Jayne Simmons###imported-end###

“ Dear Megan-- this world has lost a very precious person, and it hurts us all so much. I knew your Mom since early grade school at Greenwood School. To me she was a very unique person-- like an intellectual Lucille Ball. She loved music, theater, literature and all the arts. She was a very talented pianist and singer. It was a joy to watch her play and sing. She was vivacious, vibrant and interested in so many things. She had a great sense of humor and a heart of gold. She was one of the smartest and best people I have ever known. If you ask any of the people who grew up with her or knew her well, they would tell you the same things. May her best qualities and all the love she had for you shine within you Megan.###imported-begin###Nancy Backus###imported-end###
